The 12th Annual Ontario Advanced Intensive Therapeutic Touch Retreat: “Inspirations & Echoes”

(Fashioned after Pumpkin Hollow retreat)

A Unique experience

Its history: for many years Therapeutic Touch practitioners made their way to Therapeutic Touch programs at Pumpkin Hollow Farm retreat center, NY and Indralaya, Orca Island, WA. It was a precious opportunity to study with the developers of this modality, Dolores Krieger, PhD, RN and Dora Kunz. Then for 21 years Crystal Hawk and Mary Simpson ran the Ontario retreat.

Now that Mary and Crystal have moved on from running retreats, Laura and Diane have chosen to follow that tradition and are offering the “Inspirations & Echoes” retreat. We are embracing the echoes of past traditions and inspirations for coming retreats.

Diane and Laura have attended these 5 days PHF Advanced Invitational Healers Workshops; Diane since 1984 and Laura since 1999. Both have had the opportunity to present to colleagues and students. Diane has also attended and presented at the Camp Indralaya workshops as well since 2000. Since 2000, Diane has been facilitator for the Pumpkin Hollow's Advanced Invitational Therapeutic Touch workshops.
