 - * Verbal acknowledgement during program
 - * Logo acknowledgement and link to organization on conference web site.
- Business card ad in program

About the 2019 Third International Congress on Therapeutic Touch®

In addition to strong representation from the United States and Canada, this event attracts professionals from Therapeutic Touch organizations in Australia, Europe, Asia, Africa, and South America. Keynote speakers and a rich variety of peer workshop presenters will bring participants to the Toronto area, which was selected because a many TTIA members reside in the Midwest US and Central Canada.

Our Congress theme, "Evolving with Therapeutic Touch: The Future Consciousness of Healing Worldwide", acknowledges and explores the evolution of Therapeutic Touch as a healing modality. Our goal as healers is to become more conscious of the healing process and to join with Therapeutic Touch sisters and brothers from around the globe to share and learn together. Beyond deepening our shared connection with Therapeutic Touch and each other, this experience motivates members to enhance their diverse practices.
